MedWish International Responds to the Death of George Floyd

The MedWish International family is deeply saddened by the death of Mr. George Floyd and by the other acts of injustice that have painfully impacted so many lives, families and communities across our country.

We feel for those who are hurting and we stand beside them. MedWish is determined to make the world a better place. We work hard to fulfill our mission of nearly 27 years: to bring equal healthcare opportunity and dignity to suffering people in under-served communities, regardless of race, color, religion or political affiliation. Thanks to generous donors from all backgrounds, we deliver upon our mission to save lives and the environment while providing humanitarian aid to people in need in Northeast Ohio and throughout the world.

We take pride in our core values, and we continue to foster one of the most important ones: respect. Respect for our employees, volunteers, recipients, and donors. We embrace equality, diversity and inclusion.

MedWish anchors itself to the side of justice. We stand against racism and violence of any kind; and while we grieve, listen and learn; we will continue to do everything we can to change this world for the better, especially for the people and the communities we serve.

Sincerely,

The MedWish Team
